

3.2. Description des UMFE

Each SMS type UMFE is identical. It is a truck carrying RENAULT brand whose chassis-cabin supports all related equipment:

- d'une part à la fabrication d'explosifs,
- d'autre part au chargement de l'explosif dans le trou de mine (système de pompage de l'émulsion).

The carrying vehicle is of type 6 X 4 for a total authorized load of 34 tonnes. The carrying vehicle complies with the requirements of Part 8 of the ADR Regulation relating to EXIII vehicles.
