

TRIO CR & CRS Electro-Magnets

Powerful Self-Cleaning
and Stationary Electro-Magnets

Building Solutions Together

WWW.TRIOPRODUCTS.COM

For efficient work in heavy-duty applications, nothing can compare to TRIO's powerful, cost-effective electro-magnet.

TRIO's electro-magnets are available in self-cleaning and stationary variations, variable strengths and wattage and feature stainless steel armor-clad belting and rectifiers in NEMA enclosures.

Compared to the competition, TRIO's electro-magnets present an exceptional value in total cost of ownership for purchase, service, parts, maintenance, and transportation.

Applications

- Mixed demolition debris
- Crushed or broken concrete
- Hard rock crushing
- Mixed solids at MRF facilities
- Shredded tires
- Organic compositing

CR and CRS Series Features

- Heavy-duty steel frames
- Four pulley design
- Stainless steel armored belting with 300 FPM belt speed (variable)
- Cross-belt and in-line configurations
- One-year general warranty, five year warranty against magnetic coil burnout
- Air-cooled
- Stationary or self-cleaning
- Variable strengths and wattage depending on magnet size
- Lagged head pulley
- Screw take-ups on tail pulley
- Wound coils with Class H insulation
- NEMA 4 terminal box

Electro-Magnets

SELF-CLEANING

TRIO Builds Standard and Customized Solutions for Your Application Needs.

Whether it's feeders, crushers, washers, screens, conveyors, or complete plants, TRIO is known around the world for innovative engineering and unmatched value. Built to withstand the most demanding mine and quarry environments, TRIO helps companies meet their operational requirements on time and on budget.

TRIO sets a standard for responsiveness and flexibility in the industry, building the kind of relationships that the competition just can't match. Contact TRIO today to find out more about our range of durable, productive, highly-efficient and cost-effective aggregate and mining equipment.
