

Your Global Source For Pre-Owned Mining & Processing Equipment

Since opening in 1979, A.M. King Industries, Inc has made it their mission to offer the highest quality machinery to the mining and mineral processing industry. Lead times for purchasing new mining and processing equipment often make it difficult for mines to acquire the equipment needed to expand or start up operations quickly. A.M. King offers a solution to this problem with their extensive worldwide inventory of pre-owned or un-used mining, processing and construction equipment.

- Mining Equipment Sales
- Major Consignment Services
- Dismantling & Logistics
- Inspection & Valuations

Power Plants

A. M. King prides itself on having a system of procurement and a network of qualified professionals in every area necessary to eliminate the risk of purchasing used equipment for it's customers.

Equipment Information

A.M. King strives to provide customers with all available information about the equipment, including pictures, manuals and design drawings when available.

Preliminary Inspections

A.M. King conducts preliminary inspections on all used or unused surplus equipment before it is deemed viable for sale.

Ownership & Access

A.M. King purchases and owns over 90% of the used and unused surplus equipment being offered for sale, thereby insuring that ownership issues are settled before purchase.

Logistics Support

A.M. King has professional relationships worldwide with independent engineers, inspectors, manifesting crews, shipping organizations, and customs advocates to support the safe transport of equipment to the project site.

Worldwide Network

With sales offices in the US, Asia, & Australia, A.M. King uses their worldwide reach and network of engineering companies, mining managers, procurements analysts and executives to identify purchases and find the right end users for their equipment. Equipment is stored at locations around the world to give customers the best logistics options.
